SEO	On-Page, Technical SEO, Local SEO, Core Web Vitals, Google Analytics, Search Console, Semrush, Ahrefs
Other	Flutter (Dart), MySQL, REST API Integration, Git/GitHub, Cross-Browser Testing, Linux, Windows

WORK EXPERIENCE

Web Developer & Graphics Designer — Exdells India Pvt. Ltd. Nov 2025 – Present

WordPress | Flutter | CRM Development | Canva | Photoshop | HTML/CSS/JS

- Designed and developed the official company website: responsive, SEO-structured and brand-aligned.
- Built a Solar CRM platform for managing customer leads, project pipelines, site surveys and quotation workflows.
- Built a cross-platform Flutter mobile app for Android and iOS with clean UI, smooth navigation and REST API integration.
- Produced brand graphics, social media creatives and marketing collateral with a consistent visual identity.

Web & Graphics Designer — Payrupya Aug 2025 – Nov 2025

Canva | Adobe Photoshop | Figma | HTML/CSS | WordPress

- Designed social media creatives, promotional banners and landing page layouts with consistent branding.
- Developed website UI mockups in Figma focused on visual hierarchy, colour harmony and intuitive user flows.
- Produced marketing assets (Instagram posts, Facebook ads, website sliders) to drive online engagement.

Web Developer & SEO Specialist — HostnetIndia Apr 2025 – Aug 2025

WordPress | PHP | HTML/CSS/JS | Google Analytics | Search Console | Semrush

- Developed and maintained responsive WordPress websites with custom themes, Elementor and PHP across multiple client projects.
- Executed on-page and technical SEO: keyword optimisation, schema markup, canonical tags and internal linking.
- Ran technical SEO audits and fixed broken links, duplicate content, page speed and mobile usability issues.
- Worked on Core Web Vitals (LCP, CLS, FID) through image compression, lazy loading and caching.

Shopify Developer & UI/UX Designer — Fabritual Feb 2024 – Apr 2025

Shopify Liquid | Dawn Theme | Shopify CLI | HTML/CSS/JS | Figma | Canva

- Developed and customised Shopify storefronts with Liquid: custom sections, snippets and templates per client requirements.
- Customised the Dawn theme (layout, typography, colour schemes, product pages) and integrated third-party apps for reviews, upsells and email marketing.
- Built custom collection filters, product pages and checkout-related experiences to improve the user journey.
- Translated Figma wireframes into pixel-perfect, responsive front-end components; produced brand graphics and campaign creatives.

Web Developer — Experts Mind IT Educational Pvt Ltd Dec 2022 – Jan 2024

HTML5 | CSS3 | JavaScript | PHP | WordPress | Git/GitHub

- Built responsive, cross-browser websites with HTML, CSS, JavaScript, PHP and WordPress using custom themes and plugin integrations.
- Applied on-page SEO best practices and used Git/GitHub for version control in a structured team environment.

Front-End Developer Intern — eShiksa Technology Services Pvt. Ltd Aug 2018 – Jan 2019

HTML | CSS | JavaScript | Bootstrap | Git

- Built responsive web interfaces with HTML, CSS, JavaScript and Bootstrap; integrated REST APIs and used Git under senior developer guidance.

KEY PROJECTS

Solar CRM Platform — Exdells India Pvt. Ltd. Nov 2025 – Present

WordPress | PHP | MySQL | HTML/CSS/JS

- Built a Solar CRM to manage leads, project pipelines, site surveys and quotations, with role-based access, automated reminders and a status dashboard.

Flutter Mobile Application — Exdells India Pvt. Ltd. Nov 2025 – Present

Flutter | Dart | REST API | Android & iOS

- Developed a cross-platform Android and iOS app with live data syncing through REST API integration.

Shopify Store Customisations — Fabritual Feb 2024 – Apr 2025

Shopify Liquid | Dawn Theme | JavaScript | CSS

- Delivered customised Shopify storefronts: custom Liquid sections, Dawn theme changes and third-party app integrations for reviews, upsells and loyalty programmes.

Twimba (Twitter Clone) and Reddit Minimal — Personal Projects 2024 – Present

React.js | JavaScript | HTML | CSS

- Built two React apps: a Twitter clone with post creation and upvote/downvote, and a minimal Reddit-style app with browsing, submission and voting.

Hospital Management System — Academic Project Oct – Dec 2018

PHP | MySQL | HTML | CSS | JavaScript

- Developed a patient record system with CRUD operations, appointment scheduling and automated email/SMS reminders.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering 2014 – 2018

Rajasthan Technical University, Kota | Minor: Information Technology & Programming
